Chapter 2

WISDOM AND OPINION PIECES

- Prefer boiling over frying food, if you have little of it.
- Unpack carrot and potatoes so that they dry instead of spoiling
- Prefer basic seasoning - you don't want to overpower the natural flavour of the ingredients.
- Add salt early - herbs and pepper late or after adding water to preserve flavour.
- In soup salt the water to the desired degree. Everything will be salted thus.
- Never fry garlic if you want garlic taste.
- Salads are a waste of money - they don't fill you, go bad easy, and your body is bad at breaking down uncooked vegetables anyways.
- Don't buy milk unless you specifically need it. Oats are fine without. We're living in a recession.
- slight variations can make you think you eat different meals.
- Prefer coarse oats and wholegrain flour as they are more filling.
- Olive oil is for the upper class.
- Always boil extra rice, potato or pasta for later use.
